Publishing Speeds*

DVDs per hour 12
CDs per hour 28

Approximate Cost Per Disc*

\$.15 - \$.30

The Rimage 2000i is the most versatile desktop CD/DVD recorder and direct-to-disc publishing system available. The large 100-disc input bin allows you to handle your unique CD/DVD publishing projects-large or small.

Whether you need one disc or several hundred, the Rimage 2000i records your unique content and prints customized graphics and text directly on the disc for a complete, professional publishing solution.

Total Integration

The Rimage 2000i is totally integrated; the two high-speed recorders and inkjet printer come completely installed. Available as an option for additional purchase with the 2000i is Rimage's network connection software that enables PC users on a network to send jobs to the system for remote unattended processing.

Low Cost of Operation

Speed, reliability, and a large 100 disc input bin combined with an innovative ink management system make the Rimage 2000i the leader in price and performance.

Superior New Printing Technology

It's fast, affordable, and easy-to-use. But what really makes the all-new Rimage 2000i printer so powerful is the HP-enabled inkjet technology. The Rimage 2000i offers the smallest ink droplet available (3 pico-liters) for unsurpassed ink control and superb color management. HP's unique PhotoREt IV color-layering and ColorSmart III

color optimization technology create realistic photo images, vivid color output, and extremely sharp text for the best quality label printing directly on your disc.

Best of Breed Inkjet Printing:

The Rimage 480i

Along with industry leading robotic CD and DVD recordable technology, Rimage 2000i incorporates the Rimage 480i printer. Co-developed by Rimage and Hewlett-Packard, the Rimage 480i employs the most highly advanced printing technology in the industry. It is fast, high-resolution, and features the best color management in the industry. The 480i prints at a full color spectrum of 16.7 million colors at 4800 dpi.
